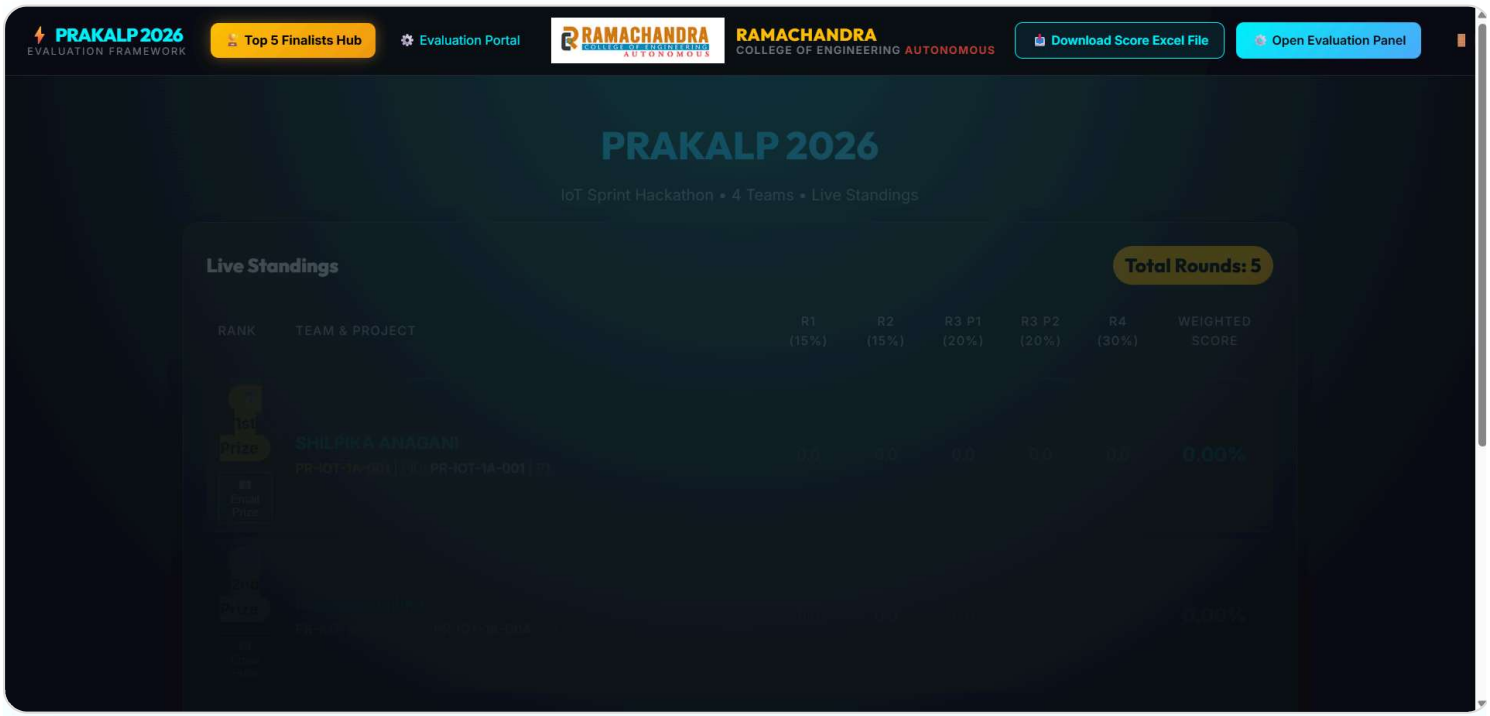
🏆 PRAKALP 2026: IoT Hackathon Admin Manual

Welcome to the **Administrator Command Center**. This manual provides a step-by-step walkthrough of your evaluation platform, from initial setup to final prize distribution.

🧭 1. Platform Navigation & Header

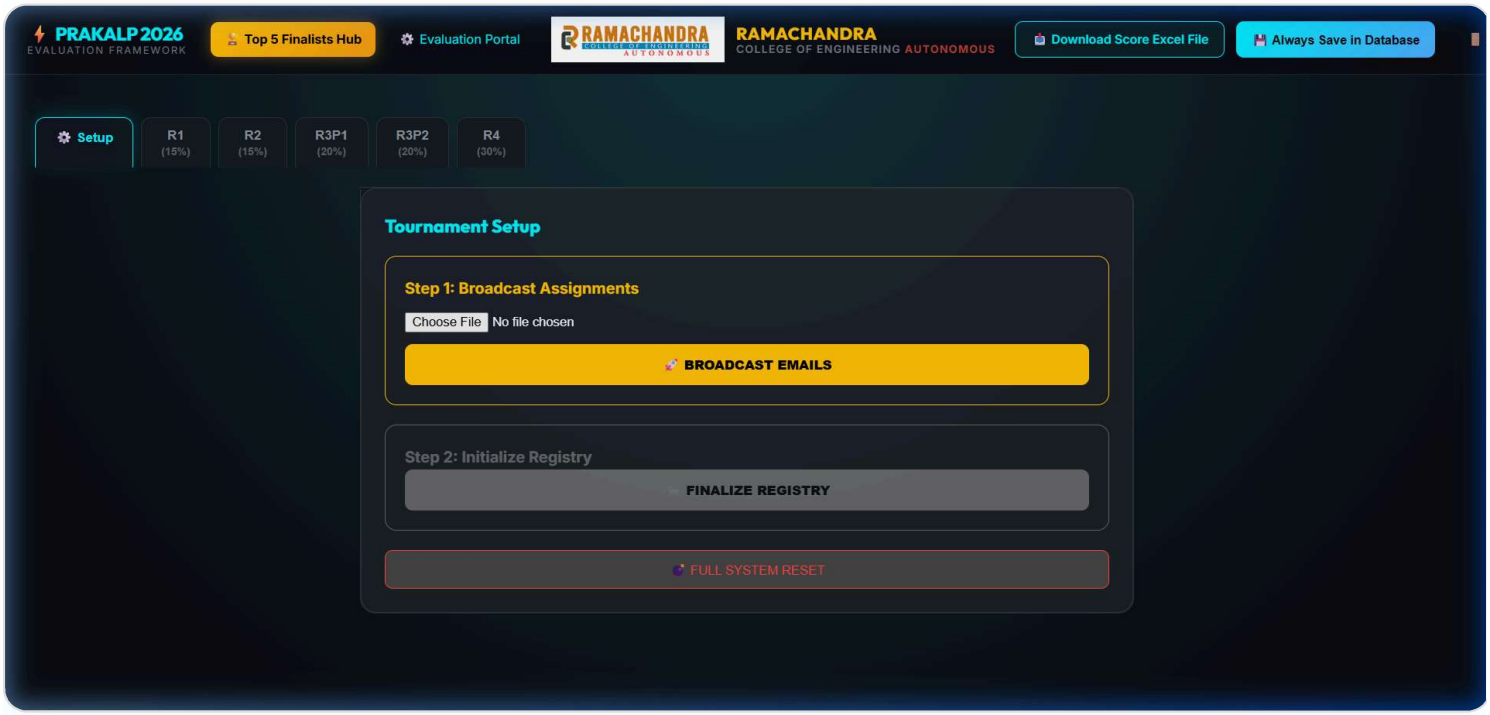
The global header is your navigation hub, accessible from every page.



1. **Top 5 Finalists Hub**: Switches to the public leaderboard view.
2. **Open Evaluation Panel**: Direct link to the Admin Dashboard (requires login).
3. **Download Score Excel File**: Instantly generates the 6-sheet management report.
4. **Always Save in Database**: A visual indicator that your auto-sync engine is active.

⚙️ 2. Tournament Setup (Registry Initialization)

Use this tab *only* when starting a new hackathon session.



Step 1: Broadcast Assignments

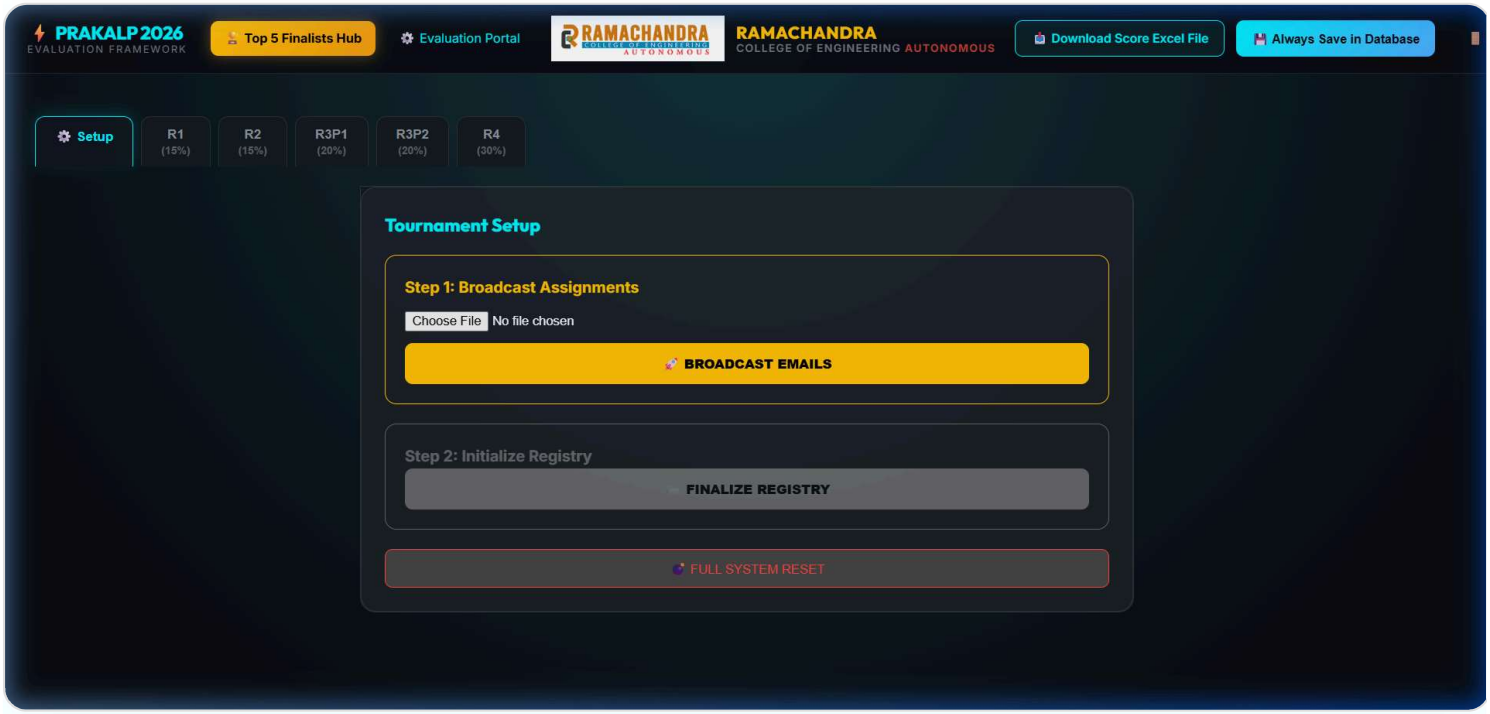
- **Action**: Upload your **PSList.csv** (Columns: TeamID, TeamName, Email, ProjectTitle).
- **Success**: The system colors the button **Gold** and starts the automated email dispatch. Students receive their Project IDs immediately.

Step 2: Finalize Registry

- **Action**: Click after Step 1 is complete.
- ⚠️ **Warning**: This will **WIPE all old marks**. It "anchors" your current student list into the scoring tables for the new event.

💣 3. CRITICAL: Full System Reset

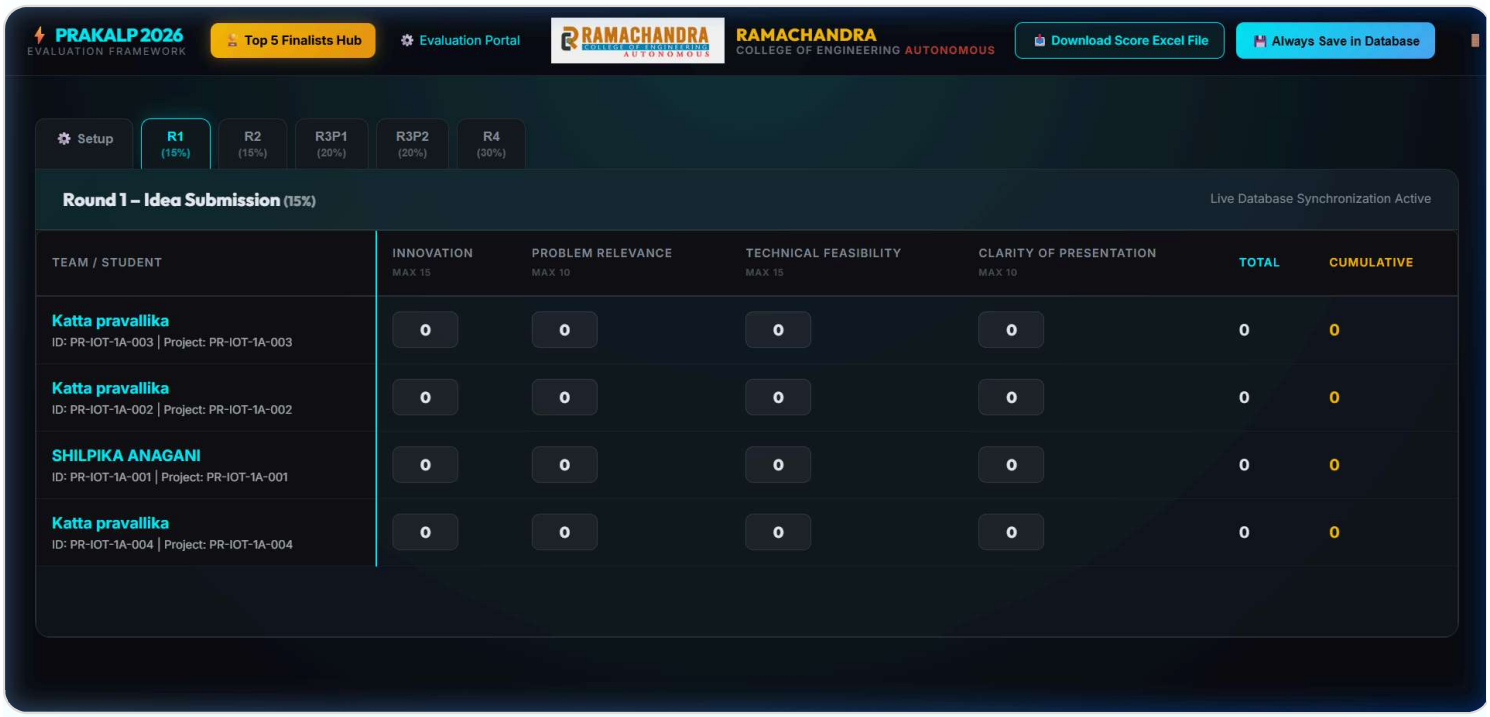
The "💣 **FULL SYSTEM RESET"** button (at the bottom of the Setup tab) is the most powerful tool in the dashboard. **Use with extreme caution!**



- **When to Use It**: ONLY before a completely new tournament starts if you want a blank database.
- **What it Destroys**:
  - 🗑️ **All Team Info**: Every student and group name is deleted.
  - 🧹 **All Scoring Logs**: Every single mark from every evaluator is purged forever.
  - 📧 **All Broadcast History**: Record of project assignment emails will be wiped.
- **Safety Lock**: I have added a "DANGER" pop-up that will ask for confirmation before it proceeds. **Click CANCEL** if you triggered this accidentally during a live event!

📝 4. Live Evaluation & Scoring

This is the main working area for evaluators during the event.



- **Switching Rounds**: Use the tabs at the top (R1, R2, R3P1, etc.) to switch between evaluation criteria.
- **Live Scoring**: Type marks directly into the boxes.
- 🔄 **Auto-Sync**: The system synchronizes with the database every 2 seconds. You do **not** need to click "Save" for each row.
- **Validation**: If you enter a score higher than the allowed maximum (e.g., 20/15), the system will automatically alert you and cap the value at the maximum limit.

📊 4. Results & Management Reports

Generating the final audit-ready results.

- **Management Excel**: Clicking "Download Score Excel File" generates an `.xlsx` file with 6 sheets:
  - **Sheets 1-5**: Detailed audit logs for every round.
  - **Sheet 6 (Final Standings)**: A professional, prize-highlighted list of all teams with their Grand Total Marks and Ranks.
- **Public Leaderboard**: The **Top 5 Finalists Hub** automatically sorts and highlights winners in Gold, Silver, and Bronze (Light Green) in real-time as scores are entered.

🖨️ How to Save this Manual as PDF

If you need a physical copy of this manual:

1. Open `docs/admin_manual.md` in your browser.
2. Press **Ctrl + P** (Windows) or **Cmd + P** (Mac).
3. Select **"Save as PDF"** as your printer destination.
4. Click **Save**.
